☆ **Cart: the error message is not displayed after input a quantity of less than 1 item**

Environment #

Operating System: Windows 10 Pro Version 22H2
Browser: Opera One Version 112.0.5197.53

Preconditions

The user is authorized

Steps to reproduce

- *Step 1*
Open <https://qa.demoshopping.ru>
- *Step 2*
Add products from the list to the cart and open the 'Корзина' page
- *Step 3*
Change the quantity of a product in the quantity form to a number less than 1 in the input field

Expected Result

The error message "Количество товара не может быть меньше 1." is displayed

Actual result

The error message "Количество товара не может быть меньше 1." was not displayed after changing the quantity of a product in the quantity form to a number less than 1 in the input field. The quantity of the product became 1 item.

☆ **Currency is not displayed on the order history page**

Environment

Operating System: Windows 10 Pro Version 22H2
Browser: Opera One Version 112.0.5197.53

Preconditions

- 1. The user is authorized
- 2. The orders are placed

Steps to reproduce

- *Step 1*
Open <https://qa.demoshopping.ru>
- *Step 2*
Open the 'История заказов' page
- *Step 3*
Check if the currency is displayed next to the total cost of each order in the appropriate column

Expected Result

Currency is displayed next to the total cost of each order in the appropriate column

Actual result

Currency was not displayed next to the total cost of each order in the appropriate column.

Номер заказа	Товар	Общая стоимость	Примерная дата доставки	Дата заказа

☆ **Incorrect currency is displayed on the cart page**

Environment

Operating System: Windows 10 Pro Version 22H2

Browser: Opera One Version 112.0.5197.53

Preconditions

The user is authorized

Steps to reproduce

- Step 1
Open <https://qa.demoshopping.ru>
- Step 2
Add products from the list to the cart and open the 'Корзина' page

Expected Result

The cost of items in the cart is reflected in USD currency, as it is displayed in the catalog

Actual result

The cost of items in the cart was reflected in rubles instead of USD, as it was displayed in the catalog, and the figures of its amount in rubles were equal to the USD currency from the catalog.

☆ **Incorrect GUI elements on the 'О компании' page**

Environment

Operating System: Windows 10 Pro Version 22H2

Browser: Opera One Version 112.0.5197.53

Steps to reproduce

- *Step 1*
Open <https://qa.demoshopping.ru>
- *Step 2*
Open the 'О компании' page
- *Step 3*
Check if all elements on the page (headers, title, text content, button, footer) are displayed and named correctly

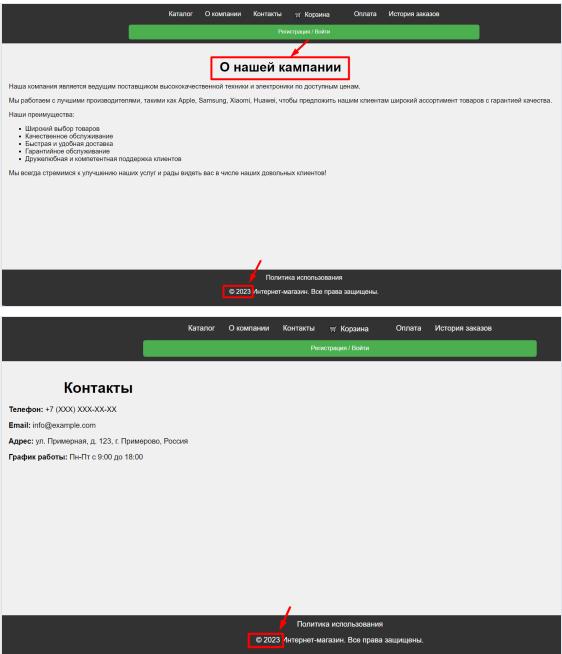

Expected Result

All the elements (headers, title, text content, button, footer) are displayed and named correctly

Actual result

The incorrect title 'О нашей кампании' was displayed instead of the title 'О нашей компании' on the about page. The incorrect year 2023 was also displayed instead of 2024 year in the footer.

*The defect with the incorrect year in the footer is also reproduced on the 'Контакты' page (the second screenshot).

☆ **The additional shipping fee exceeds the required limit**

Environment

Operating System: Windows 10 Pro Version 22H2
Browser: Opera One Version 112.0.5197.53

Preconditions

- 1. The user is authorized
- 2. Items with a shipping fee are added to the order

Steps to reproduce

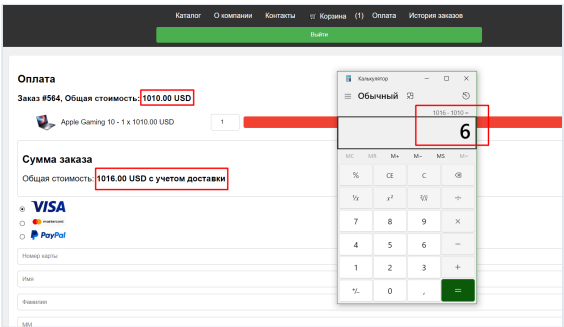

- Step 1
Open <https://qa.demoshopping.ru>
- Step 2
Open the 'Оплата' page
- Step 3
Summarize the cost of all items and compare the result to the total order amount

Expected Result

An additional \$5 is added to the total order amount

Actual result

The additional \$6 was added to the total cost as a shipping fee instead of the required 5\$

The required error message is not displayed after entering an invalid PayPal account email

Environment #

Operating System: Windows 10 Pro Version 22H2

Browser: Opera One Version 112.0.5197.53

Preconditions

1. The user is authorized
2. Products are added to the order

Steps to reproduce

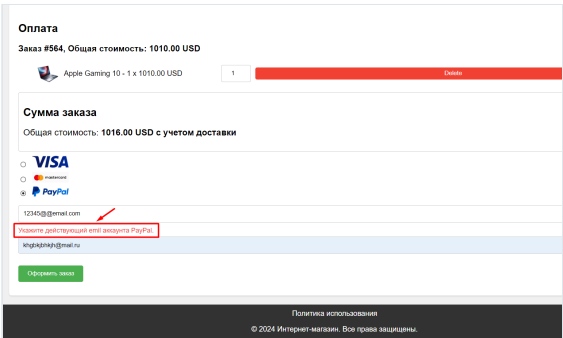

- Step 1
- Open <https://qa.demoshopping.ru>
- Step 2
- Open the 'Оплата' page
- Step 3
- Select PayPal payment option
- Step 4
- Input an invalid PayPal account email
- Step 5
- Input valid email in the email to send a check field
- Step 6
- Click the 'Оформить заказ' button

Expected Result

The message "Введите валидный email" is displayed

Actual result

The message "Укажите действующий email аккаунта PayPal." was appeared instead of the required message "Введите валидный email" after entering an invalid PayPal account email. There was a grammatical error in the message that appeared ("emil" instead of "email").

Validation error message is not displayed after input Cyrillic letters in the cardholder name field

Environment #

Operating System: Windows 10 Pro Version 22H2

Browser: Opera One Version 112.0.5197.53

Preconditions

1. The user is authorized
2. Products are added to the order

Steps to reproduce

- Step 1
- Open <https://qa.demoshopping.ru>
- Step 2
- Open the 'Оплата' page
- Step 3
- Select Visa card payment option
- Step 4
- Input valid characters in the card number field (16 digits), card expiration date fields (up to 2 digits), CVV field (3 digits), cardholder's last name field (Latin letters), email field
- Step 5
- Input Cyrillic letters (except for the 'ё' letter) in the cardholder's first name field

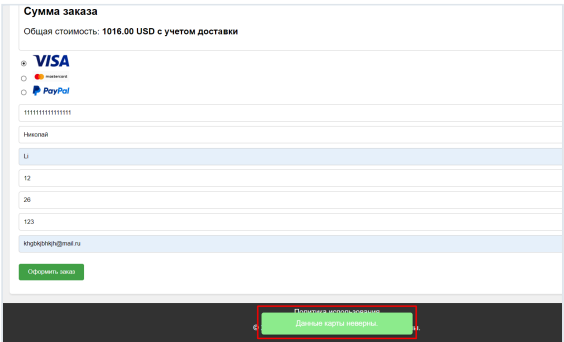

Expected Result

The message "Проверьте корректность введенных данных" is displayed

Actual result

The message "Данные карты неверны" was displayed instead of the validation error message "Проверьте корректность введенных данных" next to the cardholder name field after entering Cyrillic letters. The system approved the input of Cyrillic letters, although the requirement is to enter only Latin letters.

*This defect is also reproduced for the MasterCard payment option.
